Ageing & Wellness ACADEMY

PREPARE • EMPOWER • EQUIP • ADVANCE

PARTNERSHIP & SPONSORSHIP

Partner With Us

Together, we can change how people age, how families prepare and how care is delivered.

WHY IT MATTERS

More Nigerians are living longer, and that is something to celebrate. Families want guidance as they care for older relatives, and the people who provide daily care at home deserve the skills to do it safely and with dignity.

OUR RESPONSE

The Ageing & Wellness Academy is a professionally led education and capacity-building institution in Benin City. We equip individuals, families, caregivers, professionals and organisations with the knowledge, practical skills and confidence to promote healthy ageing and provide compassionate, competent care.

WHY WORK WITH US

We are led by Professor Obehi Akoria, Professor of Medicine and Consultant Geriatrician, who has led the UBTH multidisciplinary Geriatrics Team since 2014. She is supported by a multidisciplinary faculty. Our caregiver training is built around Nigeria's National Occupational Standards for geriatric social care.

Join us in building a society where people are prepared to age well, and older persons receive the dignity, respect and care they deserve.

The pages that follow show how organisations and individuals can work with us.

FOR ORGANISATIONS

Ways to Partner

Does your organisation care for older people, employ staff approaching retirement, or serve families looking after ageing relatives? Let's work together. Every partnership is shaped around your goals.

Hospitals and care providers	Customised, competency-based training for caregivers and support staff, built around national occupational standards.
Employers	Staff development, pre-retirement preparation and healthy-ageing programmes, and support for employees caring for older parents.
Faith and community groups	Healthy-ageing and family care sessions for members, tailored to your community.
Development organisations and government	Collaboration on workforce development, age-friendly practices and initiatives that promote healthy ageing and better care.

WHAT WE BRING

- Leadership in geriatric medicine, public health and workforce training
- Training built on national occupational standards, with competency assessment
- A multidisciplinary faculty across medicine, nursing, therapy, pharmacy, social work, and dental and skin care
- A dedicated facility with classrooms and a practical demonstration room

FOR SPONSORS

Ways to Sponsor

Your support can put skilled, compassionate care within reach of older people and families who might otherwise go without.

Sponsor a caregiver

Train a household assistant or caregiver to care for older people safely and respectfully.

₦50,000 one-day practical training
₦75,000 one module of Basic Elder Care Plus
₦400,000 the full six-week programme

Sponsor a family

Help a family whose older relative's care needs have changed to get expert guidance and a written care plan.

₦250,000 Family Care Next initial package

Equip our training rooms

Fund equipment and learning materials for hands-on practice in our demonstration room.

We will share our current needs with you.

Support healthy-ageing outreach

Help us take healthy-ageing education to communities that would otherwise miss out.

We will agree the scope with you.

OUR COMMITMENT TO SPONSORS

- You choose where your support goes: a specific project at the Academy, or through our not-for-profit Ageing and Wellness Foundation
- Acknowledgement in our materials and on our website, with your permission
- Invitations to Academy events and certificate presentations

NEXT STEPS

Let's Work Together

1

Get in touch

Call us, visit, or complete the form below.

2

Meet with us

We listen to your goals and show you around the Academy.

3

Agree a plan

Together we shape a partnership or sponsorship that fits.

Expression of Interest

Please hand in at reception
